## Safety Features

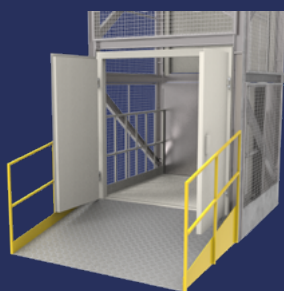

The system supports fixed sprinkler-type fire protection network in accordance to PN-EN 12845 standard "Automatic sprinkler systems – Design, installation and maintenance".

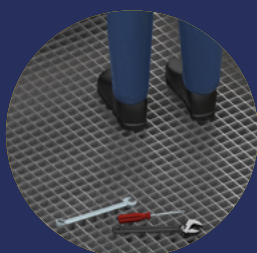

The system assures safe work in accordance to PN-EN ISO 14122-3 "Safety of machinery — Permanent means of access to machinery — Part 3: Stairs, stepladders and guard-rails".

Spiral staircases are designed in accordance to safety standard PN-80M-49060 applied to building regulations. Zinc coating process applied acc. to EN ISO 1461 (DIN 50976) protects against corrosion.

The elevator serving 2nd, 3rd and 4th levels can be delivered for lifting goods only or goods-operators (on request). Safety features applied in accordance to DIRECTIVE 2006/42/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 17 May 2006 on machinery, and amending Directive 95/16/EC (recast).  
CE marked product.  
Hydraulic lift up to 1000 kgs.  
Operational speed – 0,15m/s.

Platform gratings selected on the basis of the PN-EN-ISO-14122-2\_2016-08P safety standard, ensuring safe operation at every level of the Mezzanine System.
